

# AG 6210

The all in one base

## ALL IN ONE HIGH FOAMING

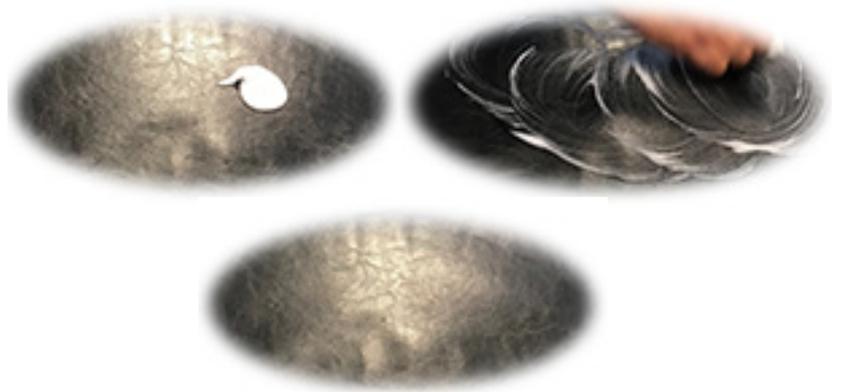

EO - free

Low tox

### FEATURES

- Temperature variation tolerant
- Nordic Ecolabel compliant
- Formulation robustness

AG 6210 is a high wetting power (Draves: 27 mN/m @ 0.1%), medium to high foaming all in one surfactant solution. It has high hydrotropic power and excellent electrolyte tolerance for high caustic/high salt formulations. AG 6210 is free from EO (ethylene oxide).

### APPLICATION AREAS

- High pH, high salt cleaners
- Household cleaners
- Home & garden

### Why use AG 6210?

- Provides powerful wetting and foaming, yet high formulation stability
- A natural choice to standard non-ionics (EO free)
- Care for the environment, Nordic Eco-label compliant DID-No: 2134
- One wetting/foaming base - many products
- Minimize your operations in production, such as handling, cleaning and limited waste

## Formulation suggestion

### Water-based RTU cleaner, non-labelled

Product	Formulation
AG 6210	0.5%
Dissolvine GL-47-S	0.5%
Alcosperse 747 (optional)*	0.2%
Water	to 100%

\* For increased dispersion of "particle" / dust soil

### Water based acidic cleaner

Product	Formulation
AG 6210	1%
Acid (e.g. citric, formic)	to desired pH
Water	to 100%

### Industrial hand soap, non-labelled

Product	Formulation
AG 6210	1%
Dissolvine GL-47-S	0.5%
Bermocoll EBS 451 FQ*	0.5%
Water	to 100%

\* should be added and dispersed prior to Dissolvine GL-47-S addition

### High foam cleaner\*, non-labelled

Product	Formulation
AG 6210	1.4%
Dissolvine GL-47-S	0.5%
Water	to 100%

\* For use with specific foam dispenser/nozzle
