

ADEKA NOL GT-series

Intelligent polymers for Personal Care

Memory Gel Thixotropic

ADEKA NOL GT-730

PROPERTIES

GT 730 forms transparent gels. It is non-sensitive towards electrolytes and has excellent reshaping properties. GT-730 is a 30% solution in Butyl Glycol (50%) and Water (20%). It is shear thinning, can be applied in spray systems and quickly restores.

KEY BENEFITS

- Thixotropic Memory Gel
- Salt- and pH-independent
- Unique Sensory Character

Immediately after agitation

30 seconds later
