

Cleaner thickening

Simplified KnowHow

ISOLATED CLEANING ACTION

Alkaline cleaners

Spot removers

Wall cleaners

FEATURES

- Tailored rheology
- Nordic Ecolabel compliant
- Neutral to alkaline formulations

APPLICATION AREAS

- Industrial & Institutional
- Vehicle cleaning
- Specialty home cleaners

A Cellulose based thickener solution for neutral to alkaline aqueous formulations, where the cleaning action needs to be retained and/or localized.

Employ in ready-to-use formulations and concentrates

Why use alkaline cleaner thickeners?

- Prolonged local action - improved cleaning
- Dose where used
- Reduced non-use
- Optimal/High active product appearance
- Cost effective

Formulation suggestion

Water-based, ready-to-use viscous cleaner

Product	Formulation
Surfactant base	0.5-1%
Dissolvine GL-47-S	0.5-1%
Bermocoll EBM 10000	0.4-0.7%
Water	to 100%

High active concentrate

Product	Formulation
Surfactant base	30-40%
Dissolvine GL-47-S	30-40%
Bermocoll EBM 10000	20-30%

Avoid water in concentrate
