

## SolAmaze™ Natural Polymer

A natural polymer for sustainable sunscreen formulations, produced from non-hazardous raw materials.

### Claims and benefits:

- Excellent water resistance
- Lightweight feel during and after application
- Easy to incorporate into emulsion sunscreen formulations
- Bio-based

SolAmaze™ Natural can be used across a range of different end products, like traditional organic and mineral sunscreens, SPF moisturizers, colour cosmetics and face – and body lotions.

INCI name: Diisostearyl Polyglyceryl-3 Dimer Dilinoleate (and) Caprylic/ Capric Tryglyceride
