

## Petadd G(FP)

### Fine Powder Graphite

#### Description

Petrico's high quality, fine powder graphite offers outstanding efficiency for use in various industrial applications, most notably in the production of greases. Highly durable with a high level of carbon content, the consistent size of the particles in this product help to improve formulation accuracy and efficiency.

#### Application

- Can be used in various industries, most notably in the production of greases.
- Quick and easy to use, improving productivity and efficiency.

#### Typical Properties

Property	Typical	Min.	Max.
Carbon Content (%m)	99.70	99.50	-
Ash Content (%m)	0.27	-	0.50
Particle size	98% <71µm	-	2% >71µm
Particle size distribution	d10: 6µm d50: 21µm d90: 55µm	-	-

#### Storage and Handling

Store in the original, sealed packaging. Protect from water and moisture. Keep away from open flames and sources of ignition.
